

## Supplier Certificate of Conformity

According to Part B of 15.101 Unintentional radiators below 30MHz are exempt. The OA-100, OA-200 and POA-100/200 devices manufactured by Orgone Amplifiers LLC and enclosed in this package are designed below this threshold and tested to be below the limitations outlined in § 15.209 Radiated emission limits; general requirements. This Certificate from the manufacturer ensures the device is compliant with all regulations concerning unintended radiators. Due to updated FCC Guidelines there is no markings of FCC compliance needed on the exterior of the device. The Device enclosed in this package is RoHS Compliant.

This device is compliant to FCC Title 47 Chapter I Subchapter A Part 15 Subpart B

§15.101 Equipment authorization of unintentional radiators.

(b) Only those receivers that operate (tune) within the frequency range of 30-960 MHz, CB receivers and radar detectors are subject to the authorizations shown in paragraph (a) of this section. Receivers operating above 960 MHz or **below 30 MHz**, except for radar detectors and CB receivers, are **exempt from complying** with the technical provisions of this part **but are subject to** § 15.5.

§ 15.5 General conditions of operation.

(a) Persons operating intentional or unintentional radiators shall not be deemed to have any vested or recognizable right to continued use of any given frequency by virtue of prior registration or certification of equipment, or, for power line carrier systems, on the basis of prior notification of use pursuant to § 90.35(g) of this chapter.

(b) Operation of an intentional, unintentional, or incidental radiator is subject to the conditions that no harmful interference is caused and that interference must be accepted that may be caused by the operation of an authorized radio station, by another intentional or unintentional radiator, by industrial, scientific and medical (ISM) equipment, or by an incidental radiator.

(c) The operator of a radio frequency device shall be required to cease operating the device upon notification by a Commission representative that the device is causing harmful interference. Operation shall not resume until the condition causing the harmful interference has been corrected.

(d) Intentional radiators that produce Class B emissions (damped wave) are prohibited.
